CONDITIONS OF SALE

All Aberdeen-Angus animals exposed for sale at sales held under the auspices of the Aberdeen-Angus Cattle Society hereinafter called "the Society" shall be sold subject to and in accordance with the following Rules:—

A. PEDIGREE

All animals entered for a Public Sale must be entered in the Society's Herd Book by the Breeder as follows:—

- (1) (a) animals 4 weeks old and over must be tattooed, their births intimated to the Society and be entered in the Society's Herd Book prior to the sale.
(b) animals under 4 weeks old must be tattooed, their births intimated to the Society and be entered in the Herd Book within four weeks after the date of sale.
- (2) in the case of a twin, this fact and whether it is a twin with a bull or a heifer must be noted on the sale entry form and in the sale Catalogue.
- (3) in the case of an animal got by artificial insemination, this must be noted on the sale entry form, and in the sale Catalogue.
- (4) the Pedigree of each animal is guaranteed to be correct by the person whose name appears as Vendor in the sale Catalogue.
- (5) all contraventions of the above Rules shall be reported, by anyone having knowledge of the contravention, to the Council of the Society who shall take such action as it considers appropriate and may instruct the Auctioneers to reject the animal from the show and sale.
- (6) should any dispute arise as to the identification in the Aberdeen-Angus Herd Book of any animal exposed for sale or as to the pedigree of any such animal, such dispute shall be referred to the Council of the Society or to such Sub-Committee as the Council may appoint as Arbiters or Arbitrators and their decision shall be final.

B. VETERINARY

- (1) Animals affected with any disease of an infectious nature, or animals out of an infected herd are strictly prohibited from being brought to the premises occupied or used by the Auctioneers at the time of the sale, and should any such be brought, the Vendor will be held responsible for all damage or loss occasioned thereby.
- (2) All animals exposed for sale must be attested and comply with the following rules concerning Contagious Abortion, viz.:—
(a) MALES. An entry will only be valid if a certificate, that the animal has passed the Agglutination Test within six weeks of the date of the sale, is received by the Auctioneers at their principal place of business not later than one week prior to the sale.

(b) FEMALES. An entry will only be valid if a certificate is, or certificates are, received by the Auctioneers at their principal place of business not later than one week prior to the sale certifying either

- (i) that the animal has passed the Agglutination Test within six weeks of the date of sale, whether or not it has been vaccinated. (It will only be permissible for the Vendor to enter such an animal as vaccinated with Br. Abortus Vaccine (Strain 19) if it is certified that the vaccination took place when the animal was over four months and under nine months of age) or
- (ii) that, in the case of females born on or after January 1st, 1960, and aged three years and under at the date of sale, the animal was vaccinated with Br. Abortus Vaccine (Strain 19) when over four months and under nine months of age, or
- (iii) that, in the case of females born on or after January 1st, 1960, and aged over three years at the date of sale, the animal was vaccinated with Br. Abortus Vaccine (Strain 19) when over four months and under nine months of age, and that the animal has passed the Agglutination Test within six weeks of the date of sale or reacted to the Agglutination Test at a titre not exceeding 1 in 20, that is to say, not more than 40 i.u./ml. of brucella antibody when tested twice at an interval of not less than one month between tests, or
- (iv) that, in the case of females born on or before December 31st, 1959, either
 - (aa) the animal was inoculated with Br. Abortus Vaccine (Strain 19) living, when over four and under nine months old and within five years of the date of sale, or
 - (bb) the animal having passed the Agglutination Test was then inoculated within 14 days after the said test with Br. Abortus Vaccine (Strain 19) living, when over nine months old (in the case of animals born before January 1st, 1959, when over eight months old) and within five years of the date of sale, or
 - (cc) the animal having been previously vaccinated in accordance with either (aa) or (bb) was re-vaccinated within five years of the previous vaccination and not more than five years prior to date of sale.

N.B.—(a) The word certificate in Rule **B.** (2) means a statement signed by a member of the Royal College of Veterinary Surgeons.

(b) Agglutination Tests must be made by laboratories which have been approved by the Ministry of Agriculture, Fisheries and Food for the carrying out of this work for export purposes.

(3) If the animal be sold with the option to "Test," such condition shall

not operate to suspend the sale or the passing of the risk but shall have effect only as follows:—

- (a) The condition shall be provable only by entry in the Auctioneers' Sale Roll.
- (b) If the option to re-test is given, the Purchaser may require the Single Intradermal Comparative Test for Tuberculosis. The Purchaser may also require the animal to be submitted to the Agglutination Test for Contagious Abortion at a laboratory approved by the Ministry of Agriculture, Fisheries and Food, and if a test for Johne's disease is required, it shall be the Complement Fixation Test for Johne's Disease to be carried out at the Weybridge Laboratory of the Ministry of Agriculture, Fisheries and Food. Notice in writing of the intention of the Purchaser to carry out such tests must be given to the Auctioneers before, or immediately after, termination of the sale.
- (c) The test shall be made by a Veterinary Surgeon to be mutually agreed between the Vendor and the Purchaser or, failing their agreement, to be appointed by the Auctioneers.
- (d) The test or tests shall only be made when the animal is (in the opinion of the chosen Veterinary Surgeon) in a fit state for testing and in the case of a test for Tuberculosis on an animal in an Attested Herd, after permission has been obtained from the Ministry of Agriculture, Fisheries and Food. The time for testing shall be limited to three weeks after sale, with power, however, to the Auctioneers to extend the period of testing from time to time if they, after hearing the chosen Veterinary Surgeon, deem such extension reasonable, and provided that in the case of the test for Tuberculosis, it shall only be carried out after an interval of not less than thirty days following any previous test for Tuberculosis.
- (e) The declaration of the chosen Veterinary Surgeon that the animal has been duly tested and the result of his test shall be final and binding on both Vendor and Purchaser.
- (f) If the animal be so declared not to have passed the test, the Purchaser shall have the right to require the Vendor who shall then be bound to re-purchase the animal at the price of the original sale and to repay the cost of the keep, any expenses of transport and the cost of the test or tests incurred by the Purchaser. Such requisition shall be notified in writing to the Vendor, and from the date of receipt of such notice the risk and expense of the animal shall be transferred to the Vendor.
- (g) In any case where the option to test is exercised, the Auctioneers shall be entitled to retain the price until the result of the test is declared.

(4) The Bull Fertility Guarantees printed on coloured insert apply to this Sale.

(5) All cows and heifers that are stated in the Catalogue as having been served or artificially inseminated not less than twelve weeks before the date of sale, or stated as having been running with a bull between dates (the latter of which is not less than twelve weeks before date of sale), will be guaranteed by the Vendor to be in-calf to the service date or between dates and to the bull stated in the Catalogue, unless any alteration is announced at the time of sale. Heifers which have not had a calf and which are sold unserved shall be so guaranteed.

All claims which may be competent under this Rule must be intimated to the Auctioneers at their principal place of business by registered post within thirteen weeks of the Sale, but in respect of females purchased for export a claim must be made prior to the shipment of the animal or within the said period of thirteen weeks, whichever is the earlier date.

To establish any claim under this Rule the Purchaser and Vendor shall mutually agree upon a Veterinary Surgeon to examine the animal, and failing agreement within three weeks after the receipt of the claim by the Auctioneers, a Veterinary Surgeon shall be appointed by the Auctioneers. In his certificate the Veterinary Surgeon must state whether or not the condition of the animal was due to any injury or disease contracted since the Sale. Should the Veterinary Surgeon's certificate establish the Purchaser's claim the Vendor shall be bound to accept delivery of the cow or heifer (as the case may be) and refund to the Purchaser the full purchase price of the animal which shall be at the Vendor's risk and expense as from the date of the notification to the Vendor of the Veterinary Surgeon's decision, together with the cost of keep and any expenses of transport incurred by the Purchaser. Failing agreement between the Vendor and the Purchaser the Auctioneers shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid and the decision of the Auctioneers shall be final and binding on both parties.

C. SALE

- (1) All animals exposed for sale must be the *bona fide* property of the Vendors at the time of the sale.
- (2) The animals shall be exposed for sale separately (except that a dam and her calf may be sold together if so stated in the following Catalogue) according to the numbers in the Catalogue.
- (3) The highest bidder shall be declared the Purchaser (subject to Rule C. (4)) and each bid shall exceed the former by at least one-half guinea. The Auctioneers reserve the right to refuse any bid without giving a reason for so doing.
- (4) The Vendor has the right to fix a reserve price and to announce such price before, during or at the conclusion of the bidding. The right

to bid by or on behalf of the Vendor in terms of the Sale of Goods Act, 1893, is expressly reserved.

- (5) Each animal forward at the sale must be exposed for sale by auction before any private sale shall be permitted or recognised by the Auctioneers.
- (6) Immediately after the sale of an animal the price thereof shall be paid by the Purchaser in cash to the Auctioneers. On the price being paid the Purchaser shall receive from the Auctioneers a written removal order and shall at his own expense remove the animal within one day of the sale or within such period as may be laid down by the Auctioneers at the commencement of the sale. No animal shall be removed without the Auctioneers' written removal order and any animal so removed shall be recovered by the Auctioneers summarily without any further warrant.
- (7) In the event of any purchaser not paying for and or not removing the animal purchased in compliance with Rule C. (6) hereof the Auctioneers in their option may, without the consent of the Vendor either (a) sue the Purchaser for the price and interest thereon at the rate of six per cent. per annum and for the keep of, and any other expense incurred by them in connection with such animal, or (b) re-sell the animal either publicly or privately and recover from the defaulting Purchaser the deficiency (if any) attending such re-sale and interest thereon as aforesaid together with the keep and all other expenses. The defaulting Purchaser shall have no defence to the Action taken by the Auctioneers. In the event of there being any surplus after paying interest, keep, and other expenses as aforesaid, such surplus shall be paid to the defaulting Purchaser.
- (8) Immediately after the purchase of each animal is declared, the risk of the animal shall pass to the Purchaser, but until the price is paid, the right of property shall not pass and delivery of the animal shall be suspended.
- (9) In the case of animals sold privately within the premises of the Auctioneers the risk and the passing of the property thereof shall be governed by the bargain made between the parties and Rule C. (8) shall not apply thereto.
- (10) No undertaking by the Auctioneers or their servants to take charge of any animal after the sale or to forward it to its destination shall be held to impose upon the Auctioneers any legal obligation or invalidate any of these Rules.
- (11) No liability whatsoever is undertaken by the Auctioneers for the accuracy or otherwise of the statements appearing in the Catalogue or made at the sale. The Vendor is responsible for such statements and for any error or mis-statement.
- (12) Apart from the Guarantees laid down in these Rules or specifically

given by the Vendor in the Catalogue animals are sold subject to their condition and to all faults.

(13) In the foregoing Rules the word "animal" shall be held to include a dam and calf when sold together.

D. COMMISSION

- (1) The Auctioneers shall charge and deduct commission of One shilling and twopence per guinea (twopence of which shall be paid by them to the Society), from the price of all animals sold, including those which may be sold privately in their premises at the time of the sale.
- (2) The Auctioneers shall be entitled to make a charge of £1 per animal against the owner on all animals entered but not put forward for sale.
- (3) The Auctioneers shall be entitled to charge against the owner one per cent. on the price bid or £1 per animal whichever is the greater on all animals put through the sale ring and withdrawn.
- (4) The Auctioneers shall not be entitled to charge commission on animals sold which fail the re-test, but shall be entitled to make a charge against the owner of £1 per animal in respect of cataloguing, etc.

E. GENERAL

- (1) Without prejudice to the foregoing Rules, it is hereby expressly declared that the Vendor by selling and the Purchaser by purchasing any animal shall be bound by the above Rules notwithstanding the terms of any statutory enactment or custom of trade to the contrary.
- (2) The Auctioneer is Judge of the Sale, to whom all disputes and differences of any kind which may arise at and in relation to the Auction, either between Vendors and bidders or among bidders themselves shall be referred and his decision shall be final and binding on all parties.
- (3) Any dispute as to any matter for the settlement of which no provision is made in these Rules shall be referred to an Arbitrator or Arbitrators (Arbitrator or Arbitrators) to be appointed, failing agreement between or amongst the parties, by the Auctioneers. The decision of the Arbitrators so appointed shall be final and binding on all parties to the dispute. Any Arbitration under this Clause shall be subject to the provision of the Arbitration Act for the time being in force in Scotland if the sale was in Scotland or in England if the sale was in England and shall be deemed to be a reference to Arbitration thereunder.

**BULL FERTILITY GUARANTEE
AND CONDITIONS AND PROCEDURE RULES
APPLICABLE THERETO**

1. THE GUARANTEE

8. All Bulls except those sold to go to non-attested Herds within Scotland, England, Wales and Northern Ireland are sold with a Guarantee by the Vendor to the Purchaser as follows:—

Bulls aged 20 Calendar Months or over

(a) In the case of bulls aged 20 calendar months or over at the date of sale that they are good servers and stockgetters and will prove themselves as such within three calendar months from the date of sale and

Bulls aged under 20 Calendar Months

(b) In the case of bulls aged under 20 calendar months at the date of sale that they are capable of getting stock within six calendar months from the date of sale or from the date on which the bull reaches the age of 12 calendar months whichever is the later. At the expiry of such period, should the bull have failed to have proved capable of getting stock due, in the opinion of a Veterinary Surgeon appointed by agreement between the Vendor and the Purchaser or failing agreement by the Auctioneers, to immaturity, said period shall be extended for a further period of three months at the expiry of which time the normal procedure as provided for hereunder shall apply. The decision as to whether this provision shall be invoked shall lie with the Vendor.

The Guarantees 1 (a) and 1 (b) are given subject to and under the following Conditions and Procedure Rules. Particular attention should be paid to the "Guarantee Period" and "Trial Period":—

2. DEFINITION

(a) **"Capable of getting stock."** "Capable of getting stock" is deemed to be proved as soon as one female is in calf to the bull, irrespective of whether hormone or other treatment has been used and irrespective of where such female may have been served by the bull i.e. it is not a condition that such service shall have taken place on the Purchaser's farm or with a female owned or provided by him.

(b) **"Guarantee Period."** The "Guarantee Period" is the period during which the guarantees referred to in 1 (a) and 1 (b) above are in force.

(c) "**Trial Period.**" The Trial Period in the case of bulls aged 20 calendar months or over at the date of sale, is two calendar months next after the date of sale and in the case of bulls aged under 20 calendar months at the date of sale three calendar months next after the date of sale or before the date on which the bull reaches the age of 15 calendar months whichever is the later.

3. CONDITIONS

- (a) That they apply to bulls bought for export, only so long as they remain in Scotland, England, Wales or Northern Ireland.
- (b) That incapacity due to injury from whatever cause, or to illness, suffered, or contracted after the date of sale is not covered by the Guarantees.
- (c) That the Purchaser shall throughout the Guarantee Period give the bull full and sufficient opportunity to prove that he is a good server and stockgetter or to demonstrate his ability to get stock whichever the case may be.
- (d) That in the case of bulls aged under 20 calendar months at the date of sale if the Vendor so requires the Purchaser shall allow and facilitate the removal of the bull from his premises to give the Vendor the opportunity of demonstrating the bull's ability to get stock within the Guarantee Period any such demonstration shall be substantiated by a certificate of a Veterinary Surgeon to the effect that an animal is in calf to the bull. Production of such a certificate shall bind the Purchaser to accept the bull as complying with the terms of the Guarantee irrespective of any custom of the trade and the Vendor shall not be liable.
- (e) That the expenses incurred in any test to establish whether the bull fulfils the terms of the Guarantee or not, after removal from the Purchaser's farm at the Vendor's request in terms of Condition 3 (d) hereof shall be paid by the Purchaser if the bull fulfils the terms of the Guarantee and by the Vendor if the bull fails to do so.
- (f) That liability shall be limited to the purchase price of the bull at the sale, with the addition, if applicable, of expenses as provided for in 3 (e) above and in Procedure Rule 4 (b) hereunder. Liability does not cover interest, expenses (except as provided for in Condition 3 (e) and Procedure Rule 4 (b)) costs, loss of profits or consequential loss or any other sum or claim whatsoever.
- (g) That in the event of a claim being substantiated and the purchase price being refunded the bull shall automatically become the property of the Vendor and be returned to him or disposed of according to his instructions at his expense.

- (h) That Hormone treatment or surgical treatment or operations shall be given or carried out only with the consent of the Purchaser and Vendor, except that surgical operations to correct faults which in the opinion of a Veterinary Surgeon to be appointed by agreement between the Vendor and the Purchaser or failing such agreement by the Auctioneers are not hereditary shall be permitted without consent should the Veterinary Surgeon be of the opinion that such operations would prove beneficial. The decision of the Veterinary Surgeon shall be final.
- (i) That the Purchaser shall comply precisely with the whole conditions herein and with the Procedure Rules for Claims hereinafter prescribed. Failure to do so shall avoid all liability under the Guarantees.

4. PROCEDURE RULES FOR CLAIMS UNDER THE GUARANTEES

- (a) The Purchaser shall claim by giving notice to the Auctioneers by registered letter immediately after evidence that the bull is not a good server and stockgetter or of failure to get stock as the case may be, has come to his notice, and in any case before the expiry of the Trial Period. The Auctioneers in turn will immediately inform the Vendor, at the same time sending to the Purchaser by Registered Post a Bull Fertility Report Form which shall form the basis of the claim. In all cases this Form, fully completed, must be returned to the Auctioneers within 30 days from the date of intimation by the Purchaser.
To comply with this Rule the Purchaser must notify the Auctioneers before the expiry of the Trial Period if sufficient time has not elapsed after service to determine that such service has been successful.
- (b) On receipt of the Bull Fertility Report Form, duly completed, the Auctioneers will consider whether any further evidence or other particulars are necessary to enable them to decide whether the bull is a good server and stockgetter or whether the bull is capable of getting stock or not as the case may be and they must in any event give their decision on or before the expiry of three calendar months after the expiry of the Guarantee Period. Any expenses properly incurred by the Auctioneers in obtaining evidence or other particulars required by them shall be payable by the unsuccessful party or as the Auctioneers may direct.
- (c) The Vendor shall receive from the Auctioneers and the Purchaser such relevant information concerning the claim as he may desire and be entitled to carry out examinations of the bull and do any other act he may consider necessary for the protection of his interests.
- (d) If the Purchaser fails within such time as the Auctioneers prescribe without sufficient cause or excuse to give all the information or other facilities required by the Auctioneers to enable them to issue their decision on his claim such claim shall be held as abandoned, and shall be forfeit.

- (e) In the event of the Vendor and Purchaser or either of them being dissatisfied with the decision of the Auctioneers or if the Auctioneers fail to issue a decision before the expiry of three calendar months after the expiry of the Guarantee Period the dispute shall be referred to Arbitration by an Arbitrator or Arbitrators who shall forthwith be nominated failing agreement between the Vendor and Purchaser by the Council of the Aberdeen-Angus Cattle Society and the decision of such Arbitrator or Arbitrators shall be final and binding on all concerned. The Arbitrator or Arbitrators shall have power to take such skilled or other advice and such probation and do any act or thing as he or they may think necessary. Any action under this Rule must be initiated by the dissatisfied party within 14 days from the date on which the Auctioneers issue their decision or of the expiry of three calendar months after the expiry of the Guarantee Period should the Auctioneers fail to make a decision, by giving written notice by registered post to the Secretary of the Society at its office, Pedigree House, 7 Bon-Accord Square, Aberdeen, that the Purchaser or Vendor wishes the dispute referred to arbitration.
- (f) Should the bull respecting which a claim is made be exported from Scotland, England, Wales or Northern Ireland or enter a non-attested herd before a final decision under Rule 4 (e) hereof has been given on the claim, and the claim shall be held as abandoned and shall be forfeit and
- (g) Notice of claim shall be made to the Auctioneers only in terms of Rule 4 (a) hereof. No private arrangement between the Purchaser and Vendor to the contrary will be recognised.

5. GENERAL

In cases where the Vendor insures against his liability under the Guarantees, the insurers shall take over the whole rights and liabilities of the Vendor under the Guarantees and Procedure Rules.

SHORTHORN

CONDITIONS OF SALE

1. The Cattle will be exposed separately according to the numbers in the following Catalogue. The Auctioneers reserve the right to refuse any bid without assigning any reason. The highest offerer of each lot will be preferred to the purchase (subject to Article 3)—each offer exceeding the former by at least one guinea. All entries must be clearly tattooed in the ear with their correct tattoo letters and numbers in accordance with the Regulations of the Shorthorn Society, and any animal found not being so tattooed will be reported to the Directors of the Scottish Shorthorn Breeders' Association, and such animal may be rejected from the Show and Sale. Twins must be so described, also whether twin with a bull or heifer.

2. The pedigree of each animal is guaranteed to be correct and registered or accepted for registration in Coates' Herd Book by the person whose name appears as the Exposer, but every animal is sold subject to all faults otherwise, with the exception that if a bull has only one Testicle down, the Owner must make intimation to this effect in the Catalogue. No liability whatever is undertaken by the Auctioneers for the statements appearing in the Catalogue or made at the Sale. The Exposer who supplies such statements is alone responsible for any error or mis-statement. Animals affected with any disease of an infectious nature or animals out of an infected Herd are strictly prohibited from being brought to the premises occupied or used by the Company at the time and should any such be brought, the Owner or Consigner will be held responsible for all damage or loss occasioned thereby.

3. The Exposers reserve the right to fix a reserve price, and to announce same before the bidding begins or during the time of the bidding or at the conclusion thereof. The right to bid by or on behalf of the Seller in terms of the Sale of Goods Act, 1893, is expressly reserved. Every animal must be the *bona fide* property of the Exposer at the time of Sale.

4. Immediately after each purchase is declared, the risk of the animal shall be exclusively with the Buyer, and it is declared that until a settlement shall be made in terms of these Conditions the delivery of the animal shall be suspended. The right of property shall not pass until the price is paid.

5. Immediately after the Sale all lots must be paid for in cash to the Auctioneers. The price being paid, each lot shall be taken away at the Buyer's expense within one day after the Sale thereof. Lots shall only be removable from the Auctioneers' possession on a written order from their clerk, and any lot removed in contravention of this condition may be recovered *brevi manu* by the Auctioneers.

6. Should any buyer fail to pay for and remove his purchase in compliance with the above Conditions, the Auctioneers in their option may either (a) sue the Buyer for the price and interest thereon at the rate of *Six per Centum*

per Annum and for the keep of, and any other expense incurred by them in connection with such purchase, or (b) re-sell the Lot either publicly or privately and recover from the defaulting buyer the deficiency (if any) attending such re-sale and interest thereon as aforesaid together with the keep and all other expenses. In either case, the Auctioneers shall have the right to sue at their own instance without the consent of the Owner or Consigner, and no defence whatever in such action shall be competent to the Buyer who shall have recourse against the Owner or Consigner alone.

7. If any animal be sold with the option to "Test," such condition shall not operate to suspend the sale or the passing of the risk but shall have effect only as follows:—

- (a) The condition shall be provable only by entry in the Auctioneers' Sale Roll.
- (b) If the option to re-test is given, the Purchaser may require the Single Intradermal Comparative Test for Tuberculosis. The Purchaser may also require the animal to be submitted to the Agglutination Test for Contagious Abortion at a laboratory approved by the Ministry of Agriculture, Fisheries, and Food, and if a test for Johne's Disease is required, it shall be the Complement Fixation Test for Johne's Disease to be carried out at the Weybridge Laboratory of the Ministry of Agriculture, Fisheries, and Food. Notice in writing of the intention of the Purchaser to carry out such tests must be given to the Auctioneers before, or immediately after, termination of the Sale.
- (c) The test shall be made by a Veterinary Surgeon to be mutually chosen between the Buyer and Seller or, failing their agreement, to be chosen by the Auctioneers.
- (d) The test or tests shall only be made when the animal is (in the opinion of the chosen Veterinary Surgeon) in a fit state for testing and in the case of a test for Tuberculosis on an animal in an Attested Herd, after permission has been obtained from the Ministry of Agriculture, Fisheries, and Food. The time for testing shall be limited to three weeks after Sale, with power, however, to the Auctioneers to extend the period of testing from time to time if they, after hearing the chosen Veterinary Surgeon, deem such extension reasonable, and provided that in the case of the Test for Tuberculosis, it shall only be carried out after an interval of not less than thirty days following any previous Test for Tuberculosis.
- (e) The declaration of the chosen Veterinary Surgeon that the animal has been duly tested and the result of his test shall be final and binding on both Seller and Buyer.
- (f) If the animal be so declared not to have passed the test, the Buyer shall have the right to require the Seller to re-purchase the animal at

the price of the original sale. Such requisition shall be notified in writing to the original Seller, and from the date of receipt of such notice the risk and expense of the animal shall be transferred to him.

(g) In any case where the option to test is exercised, the Auctioneers shall be entitled to retain the price until the result of the test is declared.

(h) The expense of any such test or tests shall be borne by the Purchaser.

8. Should an Exposer wish to warrant a bull as being a good server and stock-getter or such other qualified warranty as the Exposer may wish to give, such warranty shall be included and shall form part of the description of the bull as shown in the printed Catalogue. Should a warranty of good service and stock-getter be given, and should it be established subsequent to the Sale that the bull is incapable of service, or while capable of service is incapable of getting stock, a Purchaser shall be entitled, within sixteen weeks from the date of the Sale, to intimate such incapacity to the Vendor, and if such incapacity shall be proved by a Certificate of a Veterinary Surgeon mutually chosen, the Vendor shall be bound to accept delivery of the bull and refund the Purchaser the full purchase price of the bull. To establish a Claim under this condition, the Purchaser must give notice of his claim within sixteen weeks of the Sale. Should the Purchaser and Vendor not agree upon the appointment of a Veterinary Surgeon to examine the bull, the Auctioneers shall appoint a Veterinary Surgeon for this purpose and shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid. In his Certificate the Veterinary Surgeon must state that he has examined the bull, that its impotence or incapacity is not due to injury suffered or illness contracted since the purchase, and that he has also examined the cows or heifers upon which the bull has been tried and found them in a normal breeding state or condition, and he shall give his reasons for declaring the bull ineffective and incapable of getting stock. Notwithstanding the right of the Purchaser to return the bull to the Vendor on the ground of impotency or incapacity, the Vendor shall in no case be liable under this condition for a sum exceeding the amount for which the bull was sold (plus any expenses which may be awarded by the Auctioneers against the Vendor in terms of this paragraph) less its saleable value at the date of the Veterinary Surgeon's Certificate. In respect of bulls purchased for export, no claim under this Article shall be valid unless made prior to the shipment of the bull or within sixteen weeks of the Sale, whichever is the earlier date.

It shall be understood that this guarantee does not operate where a bull from an Attested Herd is sold to go to Non-Attested Premises.

9. All females born after 1st August, 1955, must be certified to have passed the Agglutination Test for Contagious Abortion within three months of date of Sale, or must have been vaccinated. The blood samples for the Agglutination Test must have been taken by a Veterinary Surgeon and submitted by him to an approved laboratory. Animals having passed the test must not, prior to the Show and Sale, come into contact with any animal

that is known to be infected with Contagious Abortion. The entry of any animal which has not passed the Agglutination Test but which has been vaccinated, can only be accepted providing that one of the following certificates (signed by a Veterinary Surgeon) is supplied:—

- (a) That the animal was inoculated with Br. Abortus Vaccine No. 1 (Strain 19) when between four and eight months old and within three years of date of Sale, or
- (b) That the animal having passed the Agglutination Test was then vaccinated within fourteen days with Br. Abortus Vaccine No. 1 (Strain 19) when over eight months old and within three years of date of Sale, or
- (c) That the animal having been previously vaccinated in accordance with either (a) or (b) was re-vaccinated within three years of the previous vaccinations and not more than three years prior to date of Sale.

10. All cows and heifers that are stated in the Catalogue as having been served or artificially inseminated not less than twelve weeks before the date of Sale, or stated as having been running with a bull between dates (the later of which is not less than twelve weeks before date of Sale), will be guaranteed to be in-calf to the service date or between dates and to the bull stated in the Catalogue, unless any alteration is announced at the time of Sale. Heifers which have not had a calf and which are sold unserved shall be so guaranteed. All claims which may be competent under this Condition must be intimated to the Auctioneers within sixteen weeks of the Sale, but in respect of females purchased for export a claim must be made prior to the shipment of the animal or within the said period of sixteen weeks whichever is the earlier date. To establish any claim under this Condition the Purchaser and Vendor shall mutually agree upon a Veterinary Surgeon to examine the animal, and failing agreement a Veterinary Surgeon shall be appointed by the Auctioneers. In his Certificate the Veterinary Surgeon must state that the condition of the animal was not due to any injury or disease contracted since the Sale. Should a claim be established and made as a result of the Veterinary Surgeon's Certificate the Vendor shall be bound to accept delivery of the cow or heifer (as the case may be) and refund to the Purchaser the full purchase price of the animal which shall be at the Vendor's risk and expense as from the date of the notification to the Vendor of the Veterinary Surgeon's decision. Failing agreement between the Vendor and the Purchaser the Auctioneers shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid.

11. No undertaking of the Auctioneers or their servants to take charge of any animal after the Sale or to forward it to its destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of the foregoing conditions.

12. If any dispute—other than (a) a dispute or question relating to the conduct of the Sale and (b) a dispute for the settlement of which provision has been made in terms of these Conditions—shall arise regarding any Shorthorn animal registered in Coates' Herd Book and sold at this Sale, such dispute shall be referred to the Council of the Shorthorn Society of Great Britain and Ireland as sole Arbiters for settlement, and the decision of the Council shall be final and binding on all parties to the dispute.

13. Private Sale. Each animal entered in the Catalogue must be offered for sale by Auction before any private sale shall be allowed or recognised by the Auctioneers. The usual commission must be paid on all animals afterwards sold privately within the premises of the Auctioneers.

14. Without prejudice to the foregoing Conditions of Sale it is hereby expressly declared that the Exposer by selling and the Purchaser by purchasing any animal in terms of the Conditions of Sale shall be bound by the above Conditions of Sale and shall be bound, where a dispute is referred to a Veterinary Surgeon, to accept the verdict or decision of the Veterinary Surgeon as final and binding on both Exposer and Purchaser. Neither party shall have any recourse to law in respect of said dispute otherwise than on the ground of fraud.

15. The Auctioneer is appointed Judge of the Sale, to whom are hereby submitted all disputes and differences of any kind which may arise at and in relation to the Auction, either between Exposers and Offerers or among Offerers themselves. His decision shall be final and binding on all parties.
